| No. | Product                                        | CAS No.                                                  | Document Status | Uses / Therapeutic Class                                                                                 |
|-----|------------------------------------------------|----------------------------------------------------------|-----------------|----------------------------------------------------------------------------------------------------------|
| 96  | Sildenafil Citrate                             | 171599-83-0                                              |                 | Used to treat male erectile dysfunction (impotence) and pulmonary arterial hypertension (PAH)            |
| 97  | Simvastatin                                    | 79902-63-9                                               | EDMF            | Cholesterol-lowering medicine                                                                            |
| 98  | Sodium Valproate                               | 1069-66-5                                                | EDMF            | An anticonvulsant used in the treatment of epilepsy; as well as being used as a mood stabilizer          |
| 99  | Sparfloxacin (base and / or unspecified salts) | 111542-93-9                                              |                 | A fluoroquinolone antibiotic used in the treatment of bacterial infections.                              |
| 100 | Tadalafil                                      | 171596-29-5                                              |                 | Used to treat male erectile dysfunction (impotence)                                                      |
| 101 | Terbutaline Sulfate                            | 23031-32-5                                               | EDMF            | Bronchodilator                                                                                           |
| 102 | Ticlopidine HCl                                | 53885-35-1                                               |                 | Antiplatelet drug                                                                                        |
| 103 | Topiramate                                     | 97240-79-4                                               |                 | An anticonvulsant                                                                                        |
| 104 | Tramadol HCl                                   | 194602-08-9,<br>22204-88-2,<br>36282-47-0,<br>53611-16-8 | COS /<br>EDMF   | Pain reliever (analgesic).                                                                               |
| 105 | Triclosan                                      | 3380-34-5                                                | EDMF            | Wide spectrum antibacterial and antifungal agent                                                         |
| 106 | Voriconazole                                   |                                                          |                 | Antifungal drug                                                                                          |
| 107 | Zafirlukast                                    | 107753-78-6                                              | EDMF            | An Oral leukotriene receptor antagonist used for treating asthma                                         |
| 108 | Ziprasidone                                    | 146939-27-7                                              |                 | Atypical Antipsychotic                                                                                   |
| 109 | Ziprasidone HCl                                | 138982-67-9                                              |                 | Atypical Antipsychotic                                                                                   |
| 110 | Zoledronic Acid                                | 118072-93-8                                              |                 | Used to prevent skeletal fractures in patients with cancers such as multiple myeloma and prostate cancer |
| 111 | Zolpidem tartrate                              | 99294-93-6                                               | COS /<br>EDMF   | A non-benzodiazepine sleep-inducing drug that is used primarily to treat insomnia                        |
